

Vikram Sundaram

Data Analyst

vicky.sundaram@yahoo.com | 9360159152 | Coimbatore, Tamil Nadu

PROFILE

Entry-level Data Analyst with strong skills in Excel, SQL, Power BI, Tableau, and Python, experienced in analyzing customer behavior and business performance data to generate insights that support strategic and operational decision-making.

PROFESSIONAL EXPERIENCE

CADamps Technology, Web Marketing Engineer

09/2024 – Present | Coimbatore, Tamil Nadu

- Researched and collected management-level contact data for B2B outreach campaigns
- Maintained and updated lead databases in Excel, ensuring accuracy and consistency
- Tracked outreach metrics such as emails sent and responses for basic reporting
- Performed data validation and cleanup to maintain high-quality records
- Supported website content updates and ensured business information accuracy

SKILLS

Data & Analytics: Data Cleaning & Preprocessing | Exploratory Data Analysis (EDA) | Data Visualization & Reporting | Business Intelligence & Insights | Trend Analysis & Forecasting | KPI Tracking & Performance Metrics

Technical Skills: Excel (Pivot Tables, VLOOKUP/XLOOKUP, Data Cleaning, Dashboards) | SQL (Joins, Aggregations, Subqueries, Data Extraction) | Power BI (DAX, Data Modeling, Interactive Dashboards, Reports) | Python (Pandas, Matplotlib, Data Analysis, Visualization)

COURSES

Data Analyst Course, Besant technologies

04/2025 – 11/2025 | Chennai, Tamil Nadu

- Trained in SQL, Python, Excel, Tableau, and Power BI
- Built dashboards and performed data analysis through hands-on projects

PROJECTS

Spotify Data Analysis

12/2025 – 12/2025

Analyzing Music Trends and Listener Preferences Using Data

- Analyzed Spotify music data using SQL, Python, and Power BI to identify trends in song popularity and artist performance
- Built dashboards and generated insights to understand listening patterns and music preferences

Customer Behavior Analysis

11/2025 – 12/2025

Understanding Customer Purchasing Patterns to Drive Business Decisions

- Analyzed customer shopping data using SQL, Python, Excel, and Power BI to identify purchasing trends and high-value customer segments
- Performed data cleaning, exploratory analysis, and customer segmentation to uncover key behavioral patterns
- Built interactive Power BI dashboards to visualize revenue, product performance, and customer insights
- Generated actionable business recommendations to improve customer retention and optimize marketing strategies

EDUCATION

Bachelor of Engineering (Computer Science and Engineering),

09/2020 – 05/2024 | Coimbatore, Tamil Nadu

Hindusthan Institute of technology

Academic Project: Crop Recommendation System (Machine Learning):

- Built a machine learning model to recommend crops based on soil, weather, and season data and designed to help farmers make better crop selection decisions using data-driven insights

CERTIFICATES

Structured Query Language (SQL): Completed comprehensive training in SQL using Oracle Database, covering data | definition, data manipulation, and query optimization.

Python: Completed hands-on training in Python programming, covering core concepts such as | data types, control structures, functions, file handlings.

Excel And Advanced Excel: Completed comprehensive training in Excel with Pivot Tables, Lookups, Excel formulas, data cleaning, and dashboard creation.

Power BI: Completed Power BI course with training in dashboard creation, data modeling, Power Query, DAX basics, KPIs, and interactive visuals.
